

IMPORTANT NOTICE!

Cancer Services of Gaston County

COVID19 EMERGENCY PLAN

March 16, 2020 through April 30, 2020

- As a temporary measure to ensure the safety of CS clients, volunteers, and staff, **effective immediately, the CS office will be closed to the public, including volunteers, during regular business hours. We will continue to provide services to meet needs of individuals and families living with cancer.**
- The need is great for services including liquid nutrition and supplies, so **we WILL be accepting assistance requests from 9 AM until 2 PM Monday through Thursday with a change in how we fulfill the requests.**
 1. We will accept assistance requests over the phone, by email, and by fax. Once we receive a request, we will fill the request based on availability and place the order on a table outside our front door with an assigned number printed on the order. *We will limit face to face interactions, while serving our community in need.*
 2. Mastectomy bra fittings and wig fittings are suspended.
 3. Support programs and Bingo are suspended.
- We will update our Facebook page and website, and will work with other organizations to publicize, so that the community is aware that assistance is still available.
